Conventional Expansion Joints

- Result in harsh bumpy rides for patients, equipment and drug carts
- Degrade significantly over time as construction settles
- Harbor moisture, dirt and debris

Smooth Ride Expansion Joints

- Will not harm patient outcomes unlike conventional expansion joints
- Eliminates a significant tripping hazard
- Reduces tile and floor failure near joints
- Provide indefinite service life even in high traffic areas

- Makes use of up to five different Belzona® products
- Can be installed in new construction or as a retrofit
- Creates a safe, sanitary and aesthetically pleasing finish
